WORK EXPERIENCE

Front End Developer

04/2020 - Current

Freelance

San Antonio, TX

- ▣ Developed a handful of responsive websites for clients accross industries using HTML, SASS, Javascript, Git, Ubuntu Server and Apache Web Server.
- ▣ Worked on all project aspects (written content, website design and developemnet, deployment and icon creation/image sourcing) in collaboration with clients.
- ▣ Maintained websites with change requests, server updates/management and ongoing website optimization to better load times and increase SEO rankings.

Graphic Designer

04/2020 - Current

Freelance

San Antonio, TX

- ▣ Created logos and product labels for self-sourced clients - projects were completed with client collaboration to achieve a look that best appeals to their target audience.
- ▣ Edited projects based on clients needs and medium (web, social, and print).

Project Manager

07/2017 - Current

Host It Solutions

San Antonio, TX

- ▣ Manage client meetings to determine scope of work, time lines, 3rd party integration needs and go-live dates.
- ▣ Worked with in-house engineers to assign IP ranges for client projects, firewall allowances and interface with additional resources needed such as database and email servers. Scripted tools to deploy user credentials via SMS.
- ▣ Worked with clients to streamline their current workflow processes. Introduced programming features to automate manual procedures greatly reducing manpower and developing remote access tools to push data back to home office.
